	Large Entity	Small Entity
1. Revenue Recognition	Revenue is recognized when it is realized or realizable and earned. This is generally when all the following criteria are met: (a) the earnings process is complete or nearly complete; (b) there is reasonable certainty as to the collectability of the revenue; (c) the amount of revenue can be determined with reasonable accuracy; and (d) the revenue is earned in the current period.	Revenue is recognized when it is realized or realizable and earned. This is generally when all the following criteria are met: (a) the earnings process is complete or nearly complete; (b) there is reasonable certainty as to the collectability of the revenue; (c) the amount of revenue can be determined with reasonable accuracy; and (d) the revenue is earned in the current period.
2. Expense Recognition	Expenses are recognized when the related revenue is recognized, regardless of when the expense is incurred. This is generally when all the following criteria are met: (a) the expense is incurred in the current period; (b) the amount of the expense can be determined with reasonable accuracy; and (c) the expense is incurred in the current period.	Expenses are recognized when the related revenue is recognized, regardless of when the expense is incurred. This is generally when all the following criteria are met: (a) the expense is incurred in the current period; (b) the amount of the expense can be determined with reasonable accuracy; and (c) the expense is incurred in the current period.
3. Asset Recognition	Assets are recognized when they are probable that the future economic benefits will flow to the entity and the cost or value of the asset can be determined with reasonable accuracy. This is generally when all the following criteria are met: (a) the asset is acquired in the current period; (b) the amount of the asset can be determined with reasonable accuracy; and (c) the asset is acquired in the current period.	Assets are recognized when they are probable that the future economic benefits will flow to the entity and the cost or value of the asset can be determined with reasonable accuracy. This is generally when all the following criteria are met: (a) the asset is acquired in the current period; (b) the amount of the asset can be determined with reasonable accuracy; and (c) the asset is acquired in the current period.
4. Liability Recognition	Liabilities are recognized when they are probable that the future economic benefits will flow to the entity and the cost or value of the liability can be determined with reasonable accuracy. This is generally when all the following criteria are met: (a) the liability is incurred in the current period; (b) the amount of the liability can be determined with reasonable accuracy; and (c) the liability is incurred in the current period.	Liabilities are recognized when they are probable that the future economic benefits will flow to the entity and the cost or value of the liability can be determined with reasonable accuracy. This is generally when all the following criteria are met: (a) the liability is incurred in the current period; (b) the amount of the liability can be determined with reasonable accuracy; and (c) the liability is incurred in the current period.
5. Equity Recognition	Equity is recognized when it is probable that the future economic benefits will flow to the entity and the cost or value of the equity can be determined with reasonable accuracy. This is generally when all the following criteria are met: (a) the equity is acquired in the current period; (b) the amount of the equity can be determined with reasonable accuracy; and (c) the equity is acquired in the current period.
